

Simple elegance in shapes and material

Wood is a natural material of incomparable warmth and it keeps us in connection with nature.

Manufacturer's long experience in combination with modern know-how from yacht building makes it possible to create an exclusive product of great impression.

It is obtained with carefully selected wood veneers compressed together under high pressure and completely saturated with a special resin.

The fascinating and ergonomic design has been developed by IDconnect Design Solutions, whose great experience in the automobile and luxury goods industries is worldwide renowned.

Technical craftsmanship and the careful selection of materials grant a very long service life and unchanged quality .

Alegna bathtubs are really solid. They are shaped like modern wooden boats due to manufacturer's knowledge in building yachts. This guarantees that there are definitely no distortions or cracks, even in extraordinary conditions.

They are a 100% Swiss made product with 10-year guarantee on impermeability, strength and on the coating. The service life is 40-60 years.

Laguna Pearl

A free-standing model. Its attractive design and high-quality workmanship as well as the natural warmth of wood make it the central eye-catching element in every bathroom.

Thanks to its simple mode of installation it can be installed with minimum trouble.

Laguna PEARL turns every bathroom in a real piece of jewellery.

This bathtub has a nomination at the German Design Award 2013.

The bathtub is leak-proof — thanks to the special procedure used, no water can penetrate the wood.

The bathtub does not lose its shape at all, even with very high or very low humidity.

Do not worry about bacteria that cannot accumulate because the wood is specially treated and no water can penetrate the wood.

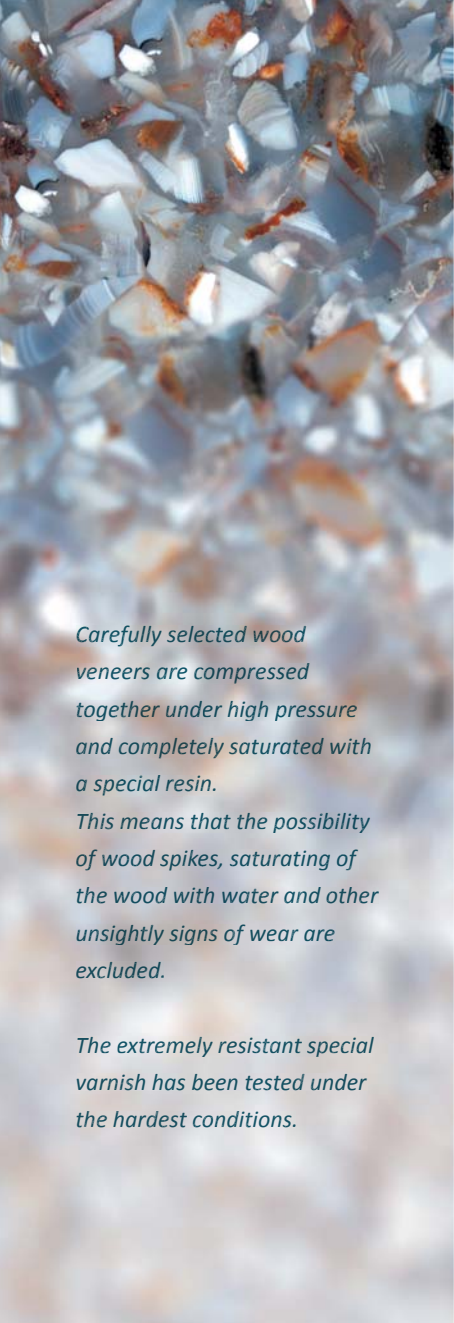

Laguna Basic

A masterpiece made from wood, forming a uniform and integrated whole.

Laguna BASIC is soft, with a curved and stable form, reflects the running water as well as a warm aura.

The perfect ergonomics guarantees an enjoyable bath. As a result of the modular form of construction, this model with rectangular external form can be realized in different dimensions to be fit in every niche. It is a really wonderful bathtub.

Carefully selected wood veneers are compressed together under high pressure and completely saturated with a special resin.

This means that the possibility of wood spikes, saturating of the wood with water and other unsightly signs of wear are excluded.

The extremely resistant special varnish has been tested under the hardest conditions.

Laguna Spa

The most fascinating bathtub of all. Its wide rim and the overflow integrated therein enable the tub to be filled brimful.

Excess water will then gurgle pleasantly away between the pebbles.

This system gives you the possibility to relax your neck and head in warm water.

The wide rim, which one can also sit on, makes getting in and out an easy matter.

Attractive optical accents can be set with the employment of different pebbles or even other materials.

Bathing becomes a delight beyond comparison.

It is as well available as fully equipped Jacuzzi

Laguna Pure

All the products can be cleaned with normal cleaning agents just like all other sanitary products.

However, it is important that no abrasive or scratching agents and cloths are used.

Even if limescale stains have built up, you can remove these with a conventional bathroom cleaner .

Laguna PURE - The special bath furniture collection. Exclusive models of basin either square or round shaped and high level wooden bath furniture.

With «Laguna pure», there are no limits regarding size and features of the products.

The Laguna PURE products can be manufactured according to your individual wish with variable sizes. The understated and modern design astoudingly individualizes every bathroom.

All details fit together to a perfect whole. It turns your bathroom into your personal oasis.
